

My goal is to design and build **delightful** digital experiences that make people smile, never stop learning, and always sweat the details.

EXPERIENCE

DISCOVERY

Senior Interactive Designer

JULY 2014 - PRESENT

A fast-paced design and development role creating online experiences for Discovery Channel, Animal Planet, and TLC shows. Responsibilities included wireframing, designing, building, and shipping projects with a small, nimble team. Projects ranged from small show interactives to large, high-traffic, international hubs for special Discovery broadcasts.

BULLY! ENTERTAINMENT

Interactive Art Director

NOVEMBER 2009 - JULY 2014

A hybrid role, where I was responsible for art directing, designing, and sometimes building user experiences, while maintaining the highest level of quality possible across interactive projects. Projects included animations, mobile experiences, kiosk installations, and full sites. Frequently communicated directly with clients to present design thinking and deliverables.

PLANIT AGENCY

Interactive Designer

JULY 2006 - NOVEMBER 2009

Worked with a team of art directors, designers, and developers to design and implement online experiences. Projects were mostly Flash-based, but ventured into HTML near the end of my time there.

EDUCATION

ROCHESTER INSTITUTE OF TECHNOLOGY

BFA, New Media Design & Imaging

2000 -2005

GPA 3.5 - DEAN'S LIST.

Relevant coursework covered interactive design, programming foundation, motion graphics, digital and film photography (including some lightroom time), 3D design and concepts, and video editing/compositing. Minored in art history and studied abroad in Italy for a semester.

SKILLS

Professional Skillset

Art direction, creative concepting, interaction design, and user experience design

Responsive design

Building and animating interface prototypes

Front-end development with HTML, CSS, and Javascript

CMS integration

Strong programming foundation

CLIENTS

Brand Experience

Discovery	PBS Kids
